

Beauty, harmony, wellbeing
are built from within

A new version of yourself

Stendo®: A new ritual for inner beauty

Stendo® Rejuvenation for your inner balance.

Based from a unique French know-how, **Stendo®** provides a new hand-free approach, patented and scientifically proven. Synchronized in real time on the heart rhythm, its Pulsewave body suit produces a massage effect with local and remote reactions, for an unprecedented activation of the blood and lymphatic circulation.

The **Stendo®** treatments, both superficial and deep, are the answer to the new needs of innovative beauty and wellness rituals, for 100% natural, high-end solutions.

Stendo® Innovation when your inner balance ...

...CLEANS AND REJUVENATES

Stendo® action activates the drainage of toxins and stimulates the metabolism and cellular exchange.

...EMBELLISHES AND NOURISHES

100% natural, **Stendo®** activates globally the microcirculation*, improves cellular nutrition and promotes the activity of fibroblasts.

*Scientifically proven, published study

...RELAXES AND DYNAMIZES

The quality and gentleness of **Stendo®** sessions are infinitely relieving, acting deeply on wellness, relaxation and anti-stress**.

**Scientifically proven. Prosody and Stroop test

Think beauty and well-being differently

Transform your beauty care offer into efficient and natural beauty rituals and complement your local action with the **Stendo®** holistic approach. Create new synergies of action and results with radiofrequency, peeling, laser, cryolipolysis or ultrasound treatments. A new offer to be integrated into beauty rituals and specialized treatments as heavy legs, cellulite, post pregnancy, remodeling, detox and anti-stress.

**The body is a fragile balance.
Its good functioning depends
on our lifestyle, nutrition and
physical activity.**

At the center of that balance lies our circulatory and lymphatic system. With each heartbeat and variation in its rhythm, the blood flow interacts with the inside of the vessels*, allowing the body to adapt to its own needs, in particular in terms of oxygen and nutrients.

Stendo® France designs and develops non-invasive solutions to stimulate the physiological balance of venous and lymphatic flows with recognised therapeutic results.

Stendo® France has been present on the French and international medical market since 2016. Its latest non-medical product developments open new perspectives for innovative beauty centres, SPA, and health resorts.

* Nobel Prize in Medicine - 1998
