

avant^opool

Pure cold. Premium quality. Life-changing benefits.

Avantopool

We Finns are cold experts. Long ago, we realized the health benefits of cold by swimming in the winter waters or rolling in the snow while taking a break from the sauna. So it's no wonder that the world's most advanced cold pools also come from Finland. The portable Avantopool cold pools bring the benefits of ice swimming to everyone, everywhere. They're always ready-to-use, and you can adjust the clean water to your desired temperature with a touch of a button. Avantopool brings the ice hole to the gym, your team's locker room, your work or home – all year round.

Who's this for?

Basically, anyone who wants to feel good.

- Pro athletes who push their limits daily
- Fitness lovers who live for that post-workout glow
- Recovery centers that take recharging seriously
- Physiotherapists helping people move better
- Sports clubs, academies, and training hubs
- Sauna and spa folks who love a good contrast
- Home wellness enthusiasts (yes, your bathroom counts)
- Workplaces that actually care about well-being
- Health clinics making recovery smarter

Got muscles? You'll love this. Got stress? Even better.

Why is cold good for you?

Science says cold is a total game-changer. It's like a reset button for your body and mind. Here's what happens when you take the plunge:

- Recovery? Faster.
- Pain? Less of it.
- Inflammation? Chilled out.
- Stamina and resistance? Upgraded.
- Brown fat? Activated (yeah, that's a good thing).
- Sleep? Deeper, better, dreamier.
- Energy? Through the roof.
- Mood? Boosted. Like, a lot.

Avantopool Kinos Evo

A premium cold plunge designed for those who demand professional recovery in a space saving form. Perfect for athletes, fitness enthusiasts, and wellness seekers who want fast muscle recovery and refreshing cold therapy. Enjoy the cold or warm, but always clean water.

Crystal-clear water, always

- Advanced continuous filtration and UV purification keep the water free from bacteria and viruses, ensuring hygienic and safe immersion every time.

Wide temperature range

- Set the water anywhere between +4°C to +40°C, making Kinos Evo perfect for both cold recovery and heat therapy.

Compact & portable

- With its smart design, Kinos Evo is easy to transport and install almost anywhere, indoors or outdoors.

Effortless use & maintenance

- Designed for simplicity, Kinos Evo requires only periodic water changes and filter clean up, ensuring hassle-free upkeep while maintaining optimal performance.

Controlled & safe immersion

- Experience cold water therapy with confidence, thanks to carefully designed safety features and a seamless immersion process.

Avantopool Kinos Plus

For perfect full-body cold immersion, Kinos Plus is 20 cm longer than the standard Kinos Evo, making it ideal for taller users. Enjoy automated cooling, premium comfort & ergonomics, and maximum recovery benefits.

Full-body immersion & ergonomic design

- Kinos Plus ensures even taller users can fully immerse. The pool's gel-coated fiberglass construction offers durability and comfort.

Always clean, always ready

- Continuous water filtration and UV purification keep water crystal-clear, free from bacteria and viruses.

Versatile temperature control

- Adjustable from +4°C to +40°C, ideal for both cold recovery and warm water therapy.

Easy operation & low maintenance

- Kinos Plus is built for convenience—just occasional water changes and filter cleaning are all it takes to keep it running smoothly and performing at its best.

Finnish innovation for professional recovery

- Designed for athletes and wellness enthusiasts alike, Kinos Plus brings the power of cold therapy anywhere, anytime.

Avantopool Kuura

Kuura represents the pinnacle of modern plunge pool design - engineered for both cold and heat therapy, as well as uncompromising recovery, always ready at exactly the temperature you desire.

Despite its compact size, Kuura offers exceptional comfort. Its 180 cm length is designed so that even taller users can relax effortlessly in the pool. The ergonomically shaped interior, integrated headrest, and refined seating comfort invite deep relaxation and effective recovery.

Finished in the radiant Midnight Opal color, Kuura is crafted from premium-grade spa acrylic that combines exceptional durability with striking aesthetics. The included insulated outdoor cover completes the experience, while the advanced filtration system with continuous UV purification keeps the water clear and clean with minimal maintenance.

Every Kuurapool featuring the Midnight Opal finish is completely unique. Due to the specialized manufacturing process, each unit displays its own distinct color patterns and variations.

Avantopool Hanki

Hanki is a lightweight, durable cold pool with an external cooling & heating unit, designed for sports teams, wellness centers, and home users. Built for on-the-go cold therapy, Hanki ensures consistent temperatures and easy portability for effective recovery wherever you need it.

Effortless mobility & versatile placement

- Hanki's lightweight design allows for easy setup in various indoor and outdoor locations, making it ideal for both personal and professional use.

User-friendly cooling system

- The external cooling unit is simple to operate, with 32mm connectors enabling fast and secure hose attachment.

Stable & comfortable design

- Built for safe and immersive cold therapy, the pool features a sturdy structure and an insulated lid for efficient temperature retention.

Hygienic & outdoor-ready

- Continuous UV purification ensures clean water at all times, while the insulated lid keeps the pool free from dirt when placed outdoors.

With the external cooling & heating unit, you can precisely adjust the water temperature from +4°C to +40°C.

Avantopool

Cooling & Heating Unit

The Avantopool External Cooling & Heating Unit is a versatile, high-performance temperature regulation system designed for seamless integration with the Hanki and Kide pools. Additionally, it can be connected to other water tanks up to 700 liters, making it an ideal choice for various hydrotherapy applications.

Adjustable temperature

- Set water between +4°C and +40°C for cold or hot therapy.

Fast & efficient

- Rapid heating and cooling for optimal recovery.

Easy operation

- Digital control panel with real-time temperature display.

WiFi connectivity

- Remote monitoring and adjustment.

Integrated circulation pump

- Ensures consistent water flow.

Weather-Resistant

- IPX4-rated for outdoor use.

Quick Setup

- 32mm connect hosing for effortless installation.
