MIND-BODY WELLNESS TECHNOLOGIES

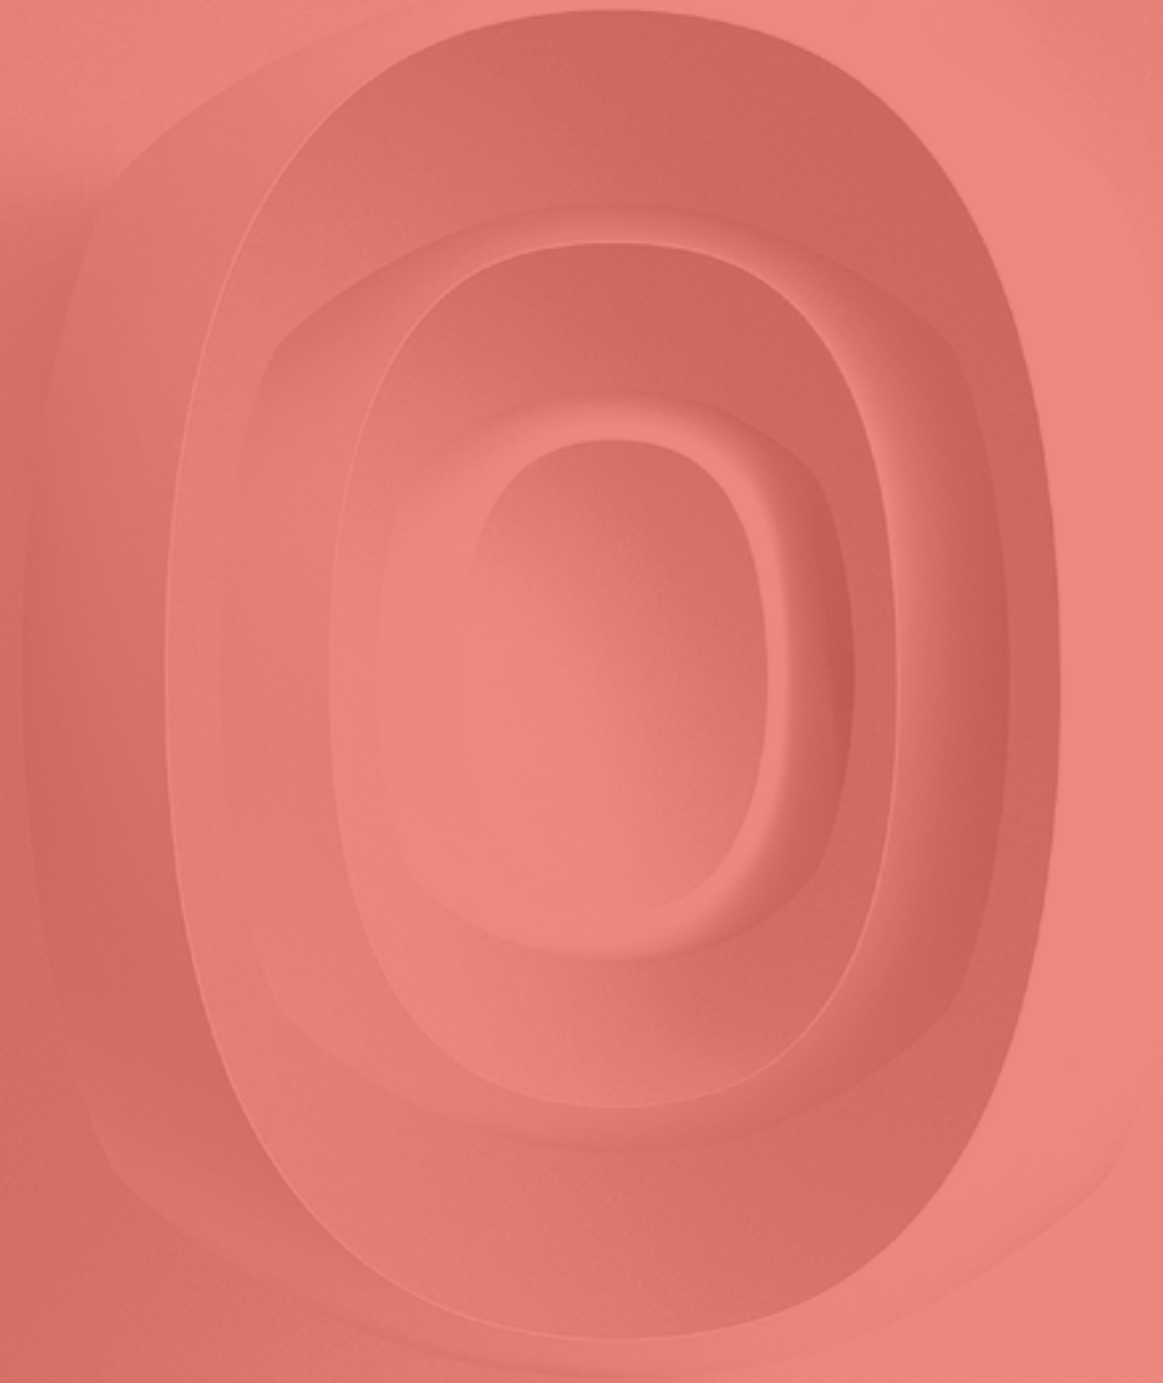

ZESTÓS DRYFLOAT

Be Weightless.

Soothe, Balance & Recharge

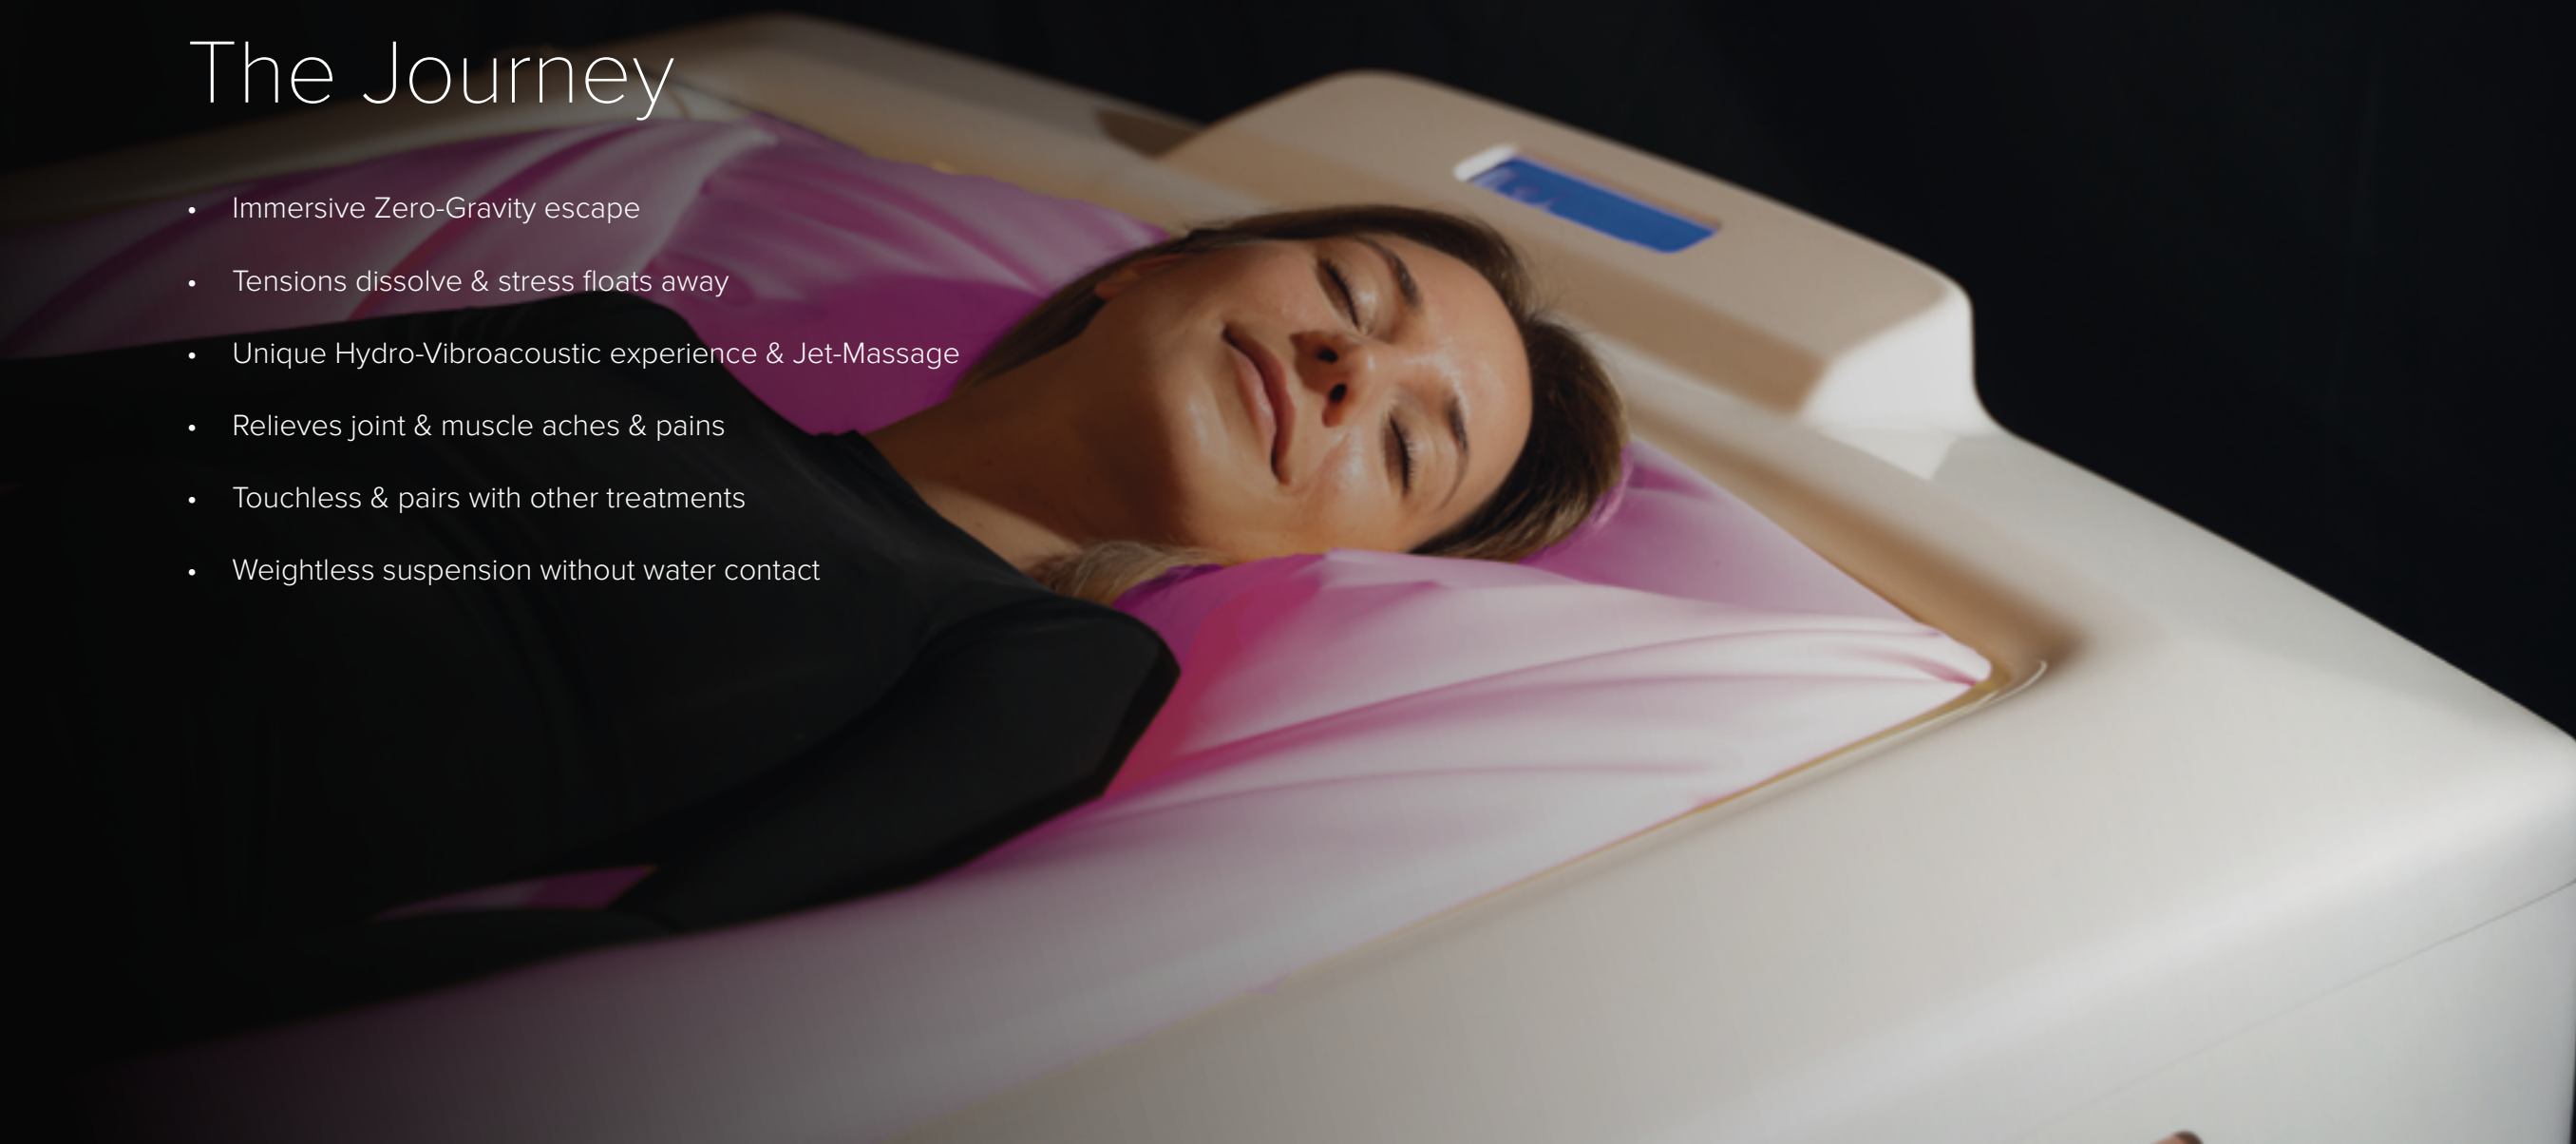

In a world that moves faster by the day, finding a moment of true relaxation can feel like chasing a mirage. Zestós DryFloat is a revolutionary wellness technology that redefines what it means to unwind.

More than just a flotation therapy, Zestós offers a multisensory escape that soothes the body, calms the mind, and recharges the soul—all without getting a single drop of water on you.

The Journey

- Immersive Zero-Gravity escape
- Tensions dissolve & stress floats away
- Unique Hydro-Vibroacoustic experience & Jet-Massage
- Relieves joint & muscle aches & pains
- Touchless & pairs with other treatments
- Weightless suspension without water contact

A deeper Dive

You'll experience the unparalleled sensation of weightlessness as warm water envelopes the body, separated by a membrane that keeps you perfectly dry.

Cue the water-powered jet massage that gently melts away every ounce of tension. Then, with Zestós' unique vibroacoustic technology, music isn't just heard—it's felt. Soundwaves ripple through the water, creating an intimate symphony that resonates through your entire body. It's a deeply immersive experience, transporting you to a place where stress fades and tranquillity takes over.

“When they switched on the jets, (...) it keeps going back and forth, and it feels really really good.”

Philippe Brenot, Senior Director of Retail at Hyatt Hotels

Why Operators choose Zestós DryFloat

Sustainable Wellness. Maximum ROI.

Unlike any other dry float experience, Zestós uniquely combines hydro-jet massage with vibroacoustic sound therapy. And unlike traditional floatation tanks, Zestós requires no wet area, no water contact, and no intensive maintenance. It's dry, hygienic, and easy to operate—lie down, let go, and float back into your day feeling restored.

From spas, medical and longevity clinics, to fitness clubs and recovery zones, Zestós takes you on a unique wellness journey—as a standalone session, or combined with other offerings, no dedicated therapist required. Guests visibly relax within moments—the smile says it all.

- ✓ Unique vibroacoustic sound technology AND water-jet massage
- ✓ Fast session turnover with minimal maintenance
- ✓ Hygienic: no shared water
- ✓ Sustainable: low water use, energy-efficient operation
- ✓ Plug-and-play simplicity
- ✓ Seamlessly integrates into existing treatments & guest flows

Zestós brings effortless recovery for both mind & body into the heart of your wellness offering—touchless, sustainable, and designed to elevate both experience and ROI.
